

# The European Technical Advisory Group of Experts (ETAGE)

convened by the World Health Organization  
Regional Office for Europe has validated that

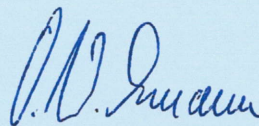

## Turkmenistan

**has reached regional targets for control  
of hepatitis B through immunization**

This achievement greatly contributes to the goal of eliminating viral hepatitis as a  
public health threat throughout the European Region.

30 March 2023

On behalf of the European Technical  
Advisory Group of Experts

Dr Ole Wichmann  
Chair
